Buick Automobile

No other automobile manufactured in the world today can claim as many glorious achievements. Our models 10 and 17 and 14, although much smaller than a great many of the competing cars entered in the year's races, have proven in 167 different events their superiority over the other makes. This, in every class of race—speed, endurance tests, hill climbing, sealed bonnet contests—in fact in every conceivable form of automobile racing, BUICKS have proven their superiority.
